

Homeopathy Essentials

ONLINE WORKSHOP

Thank you for your interest in our workshop program. This PDF is here to give you a clear idea of how our workshops run and what you will learn by attending

**DR. JENNIFER DOAN ND
HOM RAC.**

Homeopathy Essentials Online

This workshop will give you the confidence to know how to choose a homeopathic remedy, when and how often to take it. It is an online, self-paced course and you have 6 months to cover the material. This would be a one day workshop when done in person.

Fee is \$149. Homeopathic first aid kits are additional.

Who is this for

This workshop is for those interested in learning natural ways to support their health. It will provide you skills and you will gain a better understanding of what homeopathy is as a rare and valuable skill.

This is for caregivers, amateur prescribers, healthcare workers in the field who are looking for skills for single remedy prescribing.

This is for everyone. No prior experience is necessary.

What is covered?

- A brief introduction to homeopathy and the main principles.
- The holistic view of health and disease
- Learn some essential remedies
- How to differentiate between remedies, and how to choose the right one
- You will learn how to use homeopathic medicines for general home use for accidents, injuries and wounds
- You will learn homeopathic medicines to treat fever, influenza, cough and ear pain
- You will learn what to keep in your home remedy kit and how to make a homeopathic first aid kit for home
- You will learn what to do when symptoms recur.
- There will be practice cases and learning checks for understanding at each step of the way

“

The highest ideal of cure is the speedy, gentle and enduring restoration of health by the most trustworthy and least harmful way.”

Dr. Samuel Hahnemann

The Spirit of the Course...

This course is information to empower my patients and their families and homeopathy enthusiasts. You may get to the end of this course and realize it doesn't work for you. That's ok. This is information only and does not replace medical or naturopathic care.

This is not a certificate or formal training. I am giving you basic home training only: bandaids and gauze to deal with the bumps and bruises of day to day life. I am not giving you a surgical kit to perform surgery (that's a metaphor).

Thank you!
